EXPERIENCE

Software Engineer (part-time)
88NINETY Company, Remote
November 2024 – Present

- Integrated Wise and PayPal APIs to streamline employee payroll management, ensuring accurate and efficient payment processing.
- Developed a resume service enabling employees to generate ATS-friendly resumes tailored to their profiles, enhancing job application success rates.
- Integrated Microsoft Graph API to manage Teams meetings for employees, streamlining scheduling and improving team collaboration.

Software Engineering Intern
88NINETY Company, Remote
July 2024 – October 2024

- Independently developed a data integration solution to fetch and process data from Hubstaff, generating detailed and actionable reports.
- Contributed to backend development using ASP.NET Core, facilitating seamless data flow within the Employee Portal.
- Collaborated with a team of 5 developers to build the Employee Portal, a comprehensive system for managing employee data, performance reviews, and attendance.
- Actively participated in daily standups, aligning tasks with sprint goals and ensuring smooth project progress.

PROJECTS

Reading club (API), bookstoreapi.runasp.net/swagger/index.html

- Implemented role-based access control (RBAC) using ASP.NET Core for secure user authentication and authorization.
- Integrated email sending services for streamlined user management tasks like password reset.
- Enabled secure financial transactions by integrating the Stripe payment gateway.
- Utilized Azure Blob Storage for efficient image uploading and management.
- Built robust API functionalities supporting essential CRUD operations for data management.

The Wild Oasis, the-wild-oasis-hotel-app.netlify.app

- Built an intuitive booking and reservation management system.
- Streamlined check-in and check-out processes for better efficiency.
- Developed a user-friendly dashboard with graphical charts for visualizing key data.

SKILLS

Backend: C#, ASP.NET Core, Blazor
Frontend: HTML/CSS, JavaScript, React JS
Database: Microsoft SQL Server, Entity Framework
